

Good Friends

Elyar Fox

Got me feelin' like,
Got me feelin' like,
Got me feelin' like,

I step outside, just to get away
Got my whole life like waiting for me
I had a girl, but she went away
Now these eyes are aiming crossly

But I'm just a boy
Living in a world of changes
No gotta stay alone,
Too many people change quick

But I'm just a boy
And I cannot help what I'm saying
But we had a dance,
And she kissed me like she meant it,

Now I feel like we could be good friends,
Yeah good friends
I feel like we could be good friends
Oh just friends

So I asked on a date she said "I'd like to"
Said "we'd go anywhere
Just come with me I'll show you"

Said "I need to get away
We should go on holiday"
She said "I'd love to"

I laughed and she said
"Why are you on talkless book at flying so cool"
Looked into her eyes and put my hands around her hips
That's when I realize she had a perfect pair of lips

Won't let her slip away
One is everyday
When I booked a flight and we made love on every night

Good friends
Yeah good friends
I feel like we could be good friends,
Just friends

Yeah I know someday I left to say goodbye
'Cause life goes on and baby so will my love
Maybe the stars up in the sky must still love light
But until then

I feel like we could be good friends
Yeah good friends
I feel like we could be good friends
Yeah good friends
Oh yeah
Oh yeah

Oh yeah
Oh yeah
Good friends
