

I'll suck any damn cock to make me feel better  
Took it like it's Anthrax, send that boy a love letter  
W-Walking 'round give head like I don't know better  
Left his ass cummed on now he on the ceptor

Sucking cock back you already knew that  
Black cock, came up in my ass, I'm like, "Who's that?"  
Cummed on me, smoking loud, on this dick got spinned around  
On his tip I gobble down, I love quiet fuckin sound  
It's unfortunate your bros are in the ground  
Fucked him way too hard, they didn't know I was around  
Takin' big D, FC, I can't even see  
Your man text me, neck me, now he outta reach  
I reload, suck, suck, suck, like I'm heat with the bell  
Don't give a fuck, fuck, fuck how his bussy feel  
Take advantage of these nuts, don't really fuck with that  
Mixing up his booty with my dick, I'm not gon' put it back  
Now all his tears come as I penis, Imma go and see it  
Step to me before I get control and you gon' see my penis  
Please God, I've been sucking, licking for a reason  
We gon' find through his booty in the back, steady creaming  
Hear a cop car, running with my dick still beatin'  
Take a weapon, learned my lesson, find a spot to put my penis

I'll suck any damn cock to make me feel better  
Took it like it's Anthrax, send that boy a love letter  
W-Walking 'round give head like I don't know better  
Left his ass cummed on now he on the ceptor
