

I Get It

ElyOtto

The following emergency message might affect your area, listen carefully

I Get It
The world is such a damn peculiar place
Don't fret it
Sit back and now collapse the human race

And I'll never see the night again
Someone stop me now
But the time I'm in-in-in-
And I'll be as bright as him
So I might as well go with it

I- get it
I get-get it
I get i-i-i-i-i-i-i-i
I I get it get it
I get it (the world is such- the world is such- a place)
