

PONY

Ely Otto

I can't sleep I can't eat, I don't wanna be alone
But I don't fit none of my clothes
And there's nothing in my nose
Whatchu think you're gonna find if you go out to the show
Wear the static as a throne
Playing donkey kong to cope
So sick of this house
There's no solace in the glow
Of the polyphonic snow
I can't see it anymore
All the music sounds the same
I'll be wishing I was home
Waste away a little more

I don't drink Hennessy, it makes me gag
I don't do crystal meth becoz I pick my scabs
Don't like to sit around, don't like to work
Don't wanna change my life, I'm scared that it'll hurt
I can't be like you I don't really wanna try
I'm too busy getting high

Can't be like you, life is moving way too fast
No time for life, nothing wicked ever lasts
Can't be like you, man I spent all of my cash
No time for life, missing what I used to have
Can't be like you cause my bassist quit the band
No time for life I'm too busy shaking hands
I can't be like you I don't really wanna try

No time for life, nothing wicked ever lasts
I'm too busy getting high
I can't be like you I don't really wanna try

No time for life, nothing wicked ever lasts
I'm too busy getting high
I can't be like you I don't really wanna try

No time for life, nothing wicked ever lasts
I'm too busy getting high
I can't be like you I don't really wanna try
