

TEETH!

ElyOtto

This time I think I'll be just fine
Spend too many nights awake and staring at the skyline
This time I think I'll be perfect
Can't believe that just an hour ago I was hurting

This time I think I'll be just fine
I can see it staring at me from the fuckin tree line
I might look it in the eyes and throw a fuckin peace sign
I can see it's teeth but hell if it can't fuckin see mine

I'm so sick of feeling deadly
Imma just go home and scream into my fuckin yeti
That way I'll be up and feeling sharp like machete
That way I'll be up and feeling sharp like machete

This time I think I'll be just fine
Spend too many nights awake and staring at the skyline
This time I think I'll be perfect
Can't believe that just an hour ago I was hurting
