Cannabis smoking, can he get a new drug?
We're on different wavelengths, if I'm being truthful
I don't even give a fuck, 'cause I think it's so cool
I don't even care, everything you say is so true

Everywhere, every day
Everywhere, every day

I can't really tell, tell me if I'm being rude
Can't read people very well, hope you don't think that I'm stupid
Hope you think I'm chill, I'm just tryna pass as human
(I'm just tryna pass as human)

Just sometime next week, will you tell me when you're free?
I get off to set the [?], can you pick me up at 3?
I'm so glad we got to meet, can you tell me when you're free?
Can you tell me when you're free? Can you tell me when you're free?
Can you?

Warm up with a cigarette, welcome to my spaceship
Please don't go away, I don't think that I can take it
Saw your full set at an intercity station
Leanin' on a pulse, suckin' venom from a snake head
Suckin' venom from a snake head (Take it, we can't take it anymore, yo!)

Well, whenever [?]
When you said you wanna meet

So, tell me when you're free
We can [?]

So, just tell me when you're free

Take it, we can't take it anymore, yo!
