

# Never Mind That Now

Elysian Fields

I'm alone at the docks like the flotsam of ill seas  
I could float here for years and you still wouldn't know me  
So many dreams I used to dream  
Never mind that now  
All the days that could have been  
Never mind that now

I'm outside, reel my line in for good  
What made me think you could love me?  
All my chances are spent with no hope of belonging  
So many dreams I used to dream  
Never mind that now  
All the days that could have been  
Never mind that now

I'm outside, watch 'em glide, I'm left behind  
Lead feet dancing out of time  
I'm alone at the dunes  
There's a storm coming soon

So many dreams I used to dream  
Never mind that now  
All the days that could have been  
Never mind that now

Never mind that now
