

# Shelter in Place

Elysian Fields

Shelter in place  
Your funny face  
Can you broadcast?  
Can you outlast?  
Shelter in place  
Some say a change is coming  
If we can sit with ourselves  
If we got some luck, and some health  
And it's a brave new world  
That we all belong to  
When you ask yourself  
What you're holding onto  
Time to become who you are  
To let the sky fill back with stars  
Better not go outside  
Better not go outside  
Shelter in place  
Cover the mirrors  
Just more time to face  
Mistakes and our fears

Shelter in place  
Do we succumb to prayer?  
That old tab of acid's  
Around here somewhere  
And reminds me of that game we played  
When the music stops, another chair goes away  
Guess it's time to become who we are  
Let the sky fill back with stars  
Wonder what it's like outside  
Wonder what it's like outside  
Adopt a dog  
Adopt a cat  
Maybe start smoking  
Leave it at that  
Or just wait til I say  
I've missed you so  
There you are  
I've missed you so
