

Buried Alive

Elysion

I can't hear, can't see what is hiding
Ice keeps my eyes from seeing what's behind

I can no longer feel, no longer

Senses go and I lie still
Years will grow within me
All there is to feel
Loving all I used to hate
Can no longer free me
In this frozen life
I'm buried alive

Time is drifting away, it gets colder each day
As memories fade to a dead shade of grey
I'm falling to black and there's no coming back
Can no more recall who I used to be

I can no longer feel, oh no longer

Senses go and I lie still
Years will grow within me
All there is to feel
Loving all I used to hate
Can no longer free me
In this frozen life
I'm buried alive

Don't give me no reason to run from this prison
I would rather stay instead
There's nothing to save, I'm safe in this grave
There's no pain when you are dead

Senses go and I lie still
Years will grow within me
All there is to feel
Loving all I used to hate
Can no longer free me
I am freezing (I am freezing)

Senses go and I lie still
Years will grow within me
Can no longer feel, oh oh
Loving all I used to hate
Can no longer free me
In this frozen life
I'm buried alive
