

Golden Star

Elysion

La la la la la, la la la la la
Let the golden star knowing where you are

Everyone who breaths in sorrow
Need a place to call there home
Looking for a new tomorrow
Heaven thinks forever more

Far up in heaven the light shines for you

Let the golden star knowing where you are
Glimmer right into your heart
Living all your dreams, all the faith you need
Anywhere you are

Anyone to fear the darkness
Never need to walk alone
Light will be the caring mother
In your dreams your on you own

Strong winds from heaven
They whisper your name

Let the golden star knowing where you are
Glimmer right into your heart
Living all your dreams, all the faith you need
Anywhere you are

Let the golden star knowing where you are
Glimmer right into your heart
Living all your dreams, all the faith you need
Anywhere you are

(Let the golden star knowing where you are)
Glimmer right into your heart
Living all your dreams, all the faith you need
Anywhere you are
Find your golden star tonight
