

## Just Fine

Em Beihold

I found my inner strength  
Oh yes I found it before I could steal it  
And it took me quite a while  
Oh yes it took me a while but I could feel it  
To hear my name be called  
And for once I'm not ashamed  
But whenever I get hurt  
Oh whenever I get hurt  
Who's to blame?

God do you hear me?  
If you're near  
Don't know if I'll go to heaven  
But I'll still be here oh  
God if you're watching  
I want you to know I'll be fine  
Just fine

I don't need no help from no one  
I'm on my own  
I gotta get it together  
'Cause I'm all alone  
Don't need your sympathy  
Please just let me be

Just let me be  
Just let me be  
Just let me be  
I will be free  
I will be free  
I will be free  
Free from all the pain and all the lies and all the shame  
Yes I'll be free from all the pain and all the lies and all the  
shame  
Yes I'll be free from all the pain and all the lies and all the  
shame  
Yes I'll be free from all the pain and all the lies

God do you hear me?  
If you're near  
Don't know if I'll go to heaven  
But I'll still be here oh  
God if you're watching  
I want you to know I'll be fine  
Just fine
