

Thrown To The Wolves

Em Beihold

I'm still trying to figure out the ways of the world
I'm a newcomer here
But I'm kicked out of the village, thrown into the forest
Will I make it back in a year?

Yet the sound is coming closer
I don't want to expose her
The situation is unclear

Until I realise I've been thrown
To the wolves, they don't bite
They just sit there and stare
'Cause they all see me dancing
And they don't care
Thrown to the wolves
Wolves

As they walk away I follow from disbelief
Woah
Wondering why they didn't decide to take a piece of me
Yeah

Why am I not food here?
When I am so new here
The situation is unclear

Until I realise I've been thrown
To the wolves, they don't bite
They just sit there and stare
'Cause they all see me dancing
And they don't care
Thrown to the wolves
Wolves

I watch them and I follow them
To see past their disguise
I think about them daily they don't know I like to pry
Into their lies
And when the moon comes out they're human
And I'm a big surprise

Until I realise I've been thrown, thrown
(To the wolves, they don't bite)
To the wolves
(They just sit there and stare)
Until I realise I've been thrown, thrown
('Cause they all see me dancing)
To the wolves
(And they aren't scared)

Thrown to the wolves, they don't bite
They just sit there and stare
'Cause they all see me dancing
And they don't care
Thrown to wolves
Wolves

I'm still trying to figure out the ways of the world
I'm a newcomer here
