

Fire Water Air LSD

EMA

Fire, water, air, LSD
Feeling nauseous, see it in your dreams
I've been waiting here since 17
For you, come on, put the hands on me

Oh, oh, like seventeen
Oh, oh, like seventeen
Oh, oh, like seventeen
Oh, oh, like seventeen

Fire, water, air, LSD
Feel nauseous, see it in your dreams
I've been waiting, year 17
For you, come on, put the hands on me

Oh, oh, like seventeen
Oh, oh, like seventeen
Oh, oh, like seventeen
Oh, oh, like seventeen

Sun-bleached to the point of sun damage
Reaching for the sun, you will sustain some damage
If a God will break your jaw
Light can still speak through broke teeth
Still got things to say
Between a [?] and a crow there is a queen
The [?] super format
I tried to kill time, but it followed me
Like a point disappears into a line
You picked me up in a car
And when I went under the overpass
See skeletons from dinosaurs, oil from bones
Sun-bleached to the point of sun damage
All vices are inherently unsustainable

If you want it, here it is, come and get it
If you want it, here it is, come and get it
If you want it, here it is, come and get it
