

## Good Enough

Emarosa

He's just somebody to fall in line  
Until you run away again, find another friend  
There's something left with you and I  
I've got to cut it out again, cut it out again

I never gave in, had too much time  
You would have loved that, but you beat around  
Should have been something by now  
'Cause you were my dime piece  
That something one ring love, or something like that

She wants the feeling that we had, what a good run  
And when he's touching on your body, does it feel like us?  
You didn't take a lot of time, is he taking my place?  
So tell me, is it good enough?  
She wants the feeling that we had, that was bad love  
And when he's touching on your body does it get you off?  
You didn't take a lot of time, is he taking my place?  
So tell me, is it good enough?

You're not somebody to fall in line  
You want the way it should have been, didn't wanna end it  
There's something left with you and I  
Don't wanna cut it out again, will I ever walk away?

I never gave in, had too much time  
You would have loved that, but you beat around  
Should have been something by now  
'Cause you were my dime piece  
That something one ring love

She wants the feeling that we had, what a good run  
And when he's touching on your body, does it feel like us?  
You didn't take a lot of time, is he taking my place?  
So tell me, is it good enough?  
She wants the feeling that we had, that was bad love  
And when he's touching on your body, does it get you off?  
You didn't take a lot of time, is he taking my place?  
So tell me, is it good enough?

Don't you forget it  
Oh, don't you forget it  
You know, you know all my loving  
Can't take it all away, I don't know

She wants the feeling that we had, what a good run  
And when he's touching on your body, does it feel like us?  
You didn't take a lot of time, is he taking my place?  
So tell me, is it good enough?  
She wants the feeling that we had, that was bad love  
And when he's touching on your body does it get you off?  
You didn't take a lot of time, is he taking my place?  
So tell me, is it good enough?
