

# One More Time

Ember Falls

I am your fearless leader  
But you are in control  
You have the face of darkness  
My own thoughts are always wrong  
Am I the son of evil  
In this mad masquerade  
I know what's waiting for me  
I will be the one to blame

One more time  
Fight just a little bit  
One more time  
One more ride  
You're breaking your promise  
And every day  
You're lying to me  
Step by step  
We try a little longer  
Adapt one more time  
I'm leaving bad memories behind me

You are a big pretender  
The one that knows it all  
An egocentric figure  
Stabbing backs  
To reach your goals  
I scream to make you hear me  
I lie to underline  
What you are doing to me  
You have crossed the borderline

One more time  
Fight just a little bit  
One more time  
One more ride  
You're breaking your promise  
And every day  
You're lying to me  
Step by step  
We try a little longer  
Adapt one more time  
I'm leaving bad memories behind me
