

# Over My Dead Body

Ember Falls

You can have it if you want it  
Have it if you want it  
Over my dead body

Come and get it, yeah

Back in black  
Industry's under attack  
The violent pop underdogs are back on track  
We are juggernauts with our backs against the wall  
Showbiz; a bitch  
We take it by storm

Going through Hell like we call it home  
Selling ourselves just to save our souls  
Every dumbass wants to take the throne  
They need a old band the show 'em how it goes

The lights are out  
I feel the rush now  
The crowd is loud  
It's time to go out  
We're just getting started  
Everybody join the party  
The lights are out  
I feel the rush now

You can have it if you want it  
Over my dead body

We keep on dreaming  
We're driven only by the feeling inside  
We keep living and breathing this way 'til we die  
'Til we die  
You can have it if you want it  
Over my dead body

Back in black  
Industry's under attack  
The violent pop underdogs are back on track  
We are juggernauts with our backs against the wall  
Showbiz; a bitch  
We take it by storm

Coming for everything we couldn't have  
Gave it all, now we're gonna take it back  
And we take some more and we make it last  
Stay tuned for the breakthrough

We keep on dreaming  
We're driven only by the feeling inside  
We keep living and breathing this way 'til we die  
'Til we die  
You can have it if you want it  
Over my dead body

We're dreaming

So what do you see when you close your eyes?  
We keep living and breathing this way 'til we die

You can have it if you want it  
Over my dead body  
You can have it if you want it  
Want it!  
Come and get it!

We keep on dreaming  
We're driven only by the feeling inside  
We keep living and breathing this way 'til we die  
'Til we die  
You can have it if you want it  
Over my dead body

We're dreaming  
So what do you see when you close your eyes?  
We'll live this way 'til we die
