

# We Are Become Fire

Ember Falls

Is there anyone out there for us?  
With the city lain fallen to dust  
Is there anything left to say  
Our prayers now lie buried 'neath this rust

Is there any salvation for us?  
In whatever is left of this crust  
Maybe the devil is the only one to love  
These souls in wanderlust

There's a reason why  
It's the way we die  
Undressing the sky  
Twilight in our eyes  
We are disposable  
We are collateral  
We are the fuel to the fires in terminal rise

Purifier, rectifier  
Existential equalizer  
The burning God on the wire  
We are become  
We are become  
Fire

Come the final fiery hour  
I invoke thy holy power  
The world is ours to devour  
We are become  
We are become  
Fire

In the coals of the final morning  
Feel the fury in the embers growing  
They can never repay the way our lives  
Were violently defined

Free my God, break the bonds  
Of this old prison  
All will witness the Face of Atom  
A savior is born  
Reciting the verses of a cosmic swan-song

Purifier, rectifier  
Existential equalizer  
The burning God on the wire  
We are become  
We are become  
Fire

Come the final fiery hour  
I invoke thy holy power  
The world is ours to devour  
We are become  
We are become...

There's a reason why

It's the way we die  
There's a reason why  
It's the way we die  
There's a reason why  
It's the way we die  
Together we will lie  
Jointly say goodbye

I could never look at the light  
The rays they burn and blind  
I claw my eyes to cut them out  
The foil covers your hands  
Frigid fingers don't cross the distance  
There is a reason why  
We all elect to die  
But I don't recall when I first believed the lie

Purifier, rectifier  
One and only God  
Purifier, rectifier  
Existential equalizer  
The burning God on the wire  
We are become  
We are become  
Fire

Come the final fiery hour  
I invoke thy holy power  
The world is ours to devour  
We are become  
We are become

There's no reason why (fire)  
We should ever die  
There's no reason why (fire)  
We should ever die

We are become  
We are become  
Fire
