

Money on the brain think it's controlling me, all or nothing, all in for the dream pull a Cobain go out with a bang, with a bang  
Go out with a bang

Yeah this is me with my ego in flamed up on the wall I'll be leaving a stain  
It'll be platinum or it'll be brains yeah you know they gone remember the name of the man who came here who was breathe in the flames  
She walked away leave me in pain  
Don't give up on that reason you pray  
That dream that you chase  
Hope you're living and seizing the day cause you never know when you'll be leaving this place

Money on the brain think it's controlling me all or nothing, all in for the dream pull a Cobain go out with a bang, with a bang  
When you in it for the ride  
When you live this kind of life  
It's a sweet suicide  
Go out with a bang

Ohooo

Yeah I've been getting high with the bass down low, new city every night yeah that's always been the goal when you look into my eyes do you still see I soul  
You can find me in the sky ain't afraid of the fall, ain't afraid of the fall  
Lately I feel like I'm stuck in a loop  
It's like you think I've got nothing to lose too, got much potential with too much to do I'm too old for this shit so I'm cutting you loose

Money on the brain think it's controlling me all or nothing all in for the dream pull a Cobain go out with a bang, with a bang  
When you in it for the ride  
When you live this kind of life  
It's a sweet suicide  
Go out with a bang

Yeah this shit is do or die  
Taking off I'm taking flight  
You can tell them I arrived  
Go out with a bang, yeah  
Go out with a bang
