

My Year

Emblem3

Been treadin' water for a minute now
They tell me I should probably cool it down
Oh I can take the hit right to the chin
Up against the ropes, yea
I been around the block a time or two
I took a couple L's to find the groove
But that's ok you fall to learn to fly
Ya that's how she goes

Soon as you
Get your bread right
All a sudden they gone hang around
Try and take flight but they all seem to weigh ya down
Ask for the time but my wrist too bright
Used to leave me on read
Now she messin' up my bed like

I, I'm done being down
It's my year
I, I feel so close
It's my year
I, I'm leavin' the crowd
It's my year
I, I feel so close
I feel so close
It's my year, it's my year, I feel so close
It's my year, it's my year, I feel so close

The temple in my mind been burning down
I wear my crooked head oh like a crown
I roll another zone to catch the feels
Now I'm up in smoke, yea
When everything you thought you knew was wrong
Born into a world you don't belong
To find myself I had to disappear
That's why I went ghost

Soon as you
Get your bread right
All a sudden they gone hang around
Try and take flight but they all seem to weigh ya down
Ask for the time but my wrist too bright
Used to leave me on read
Now she messin' up my bed like

I, I'm done being down
It's my year
I, feel so close
It's my year
I, I'm leavin' the crowd
It's my year
I, I feel so close
I feel so close
It's my year, it's my year, I feel so close
It's my year, it's my year, I feel so close

It's my year, it's my year

(I feel so close)

It's my year, it's my year

(I feel so close)

I feel so close

(I feel so close)

(I feel so close)
