

## Now

## Emblem3

Make way for the kings  
When E3 steps back in the scene  
Just a couple bros a guitar and a dream  
Everything we need to achieve anything  
And we got lil keats on the mac making beats.  
Got wesley on the mic he can sing  
Then me on the side been banging these strings  
Been pretty much the same kids since 16  
But now we're back makin' waves like a typhoon  
Couple kids in a million dollar typhoon  
Climbing up the billboard climbing up the iTunes screaming baby  
baby

Baby we're back  
Did ya miss me miss me  
Here on this track  
Are you listening listening  
I'm in the stars  
And I'm never coming down  
Oh whoa oh  
No one can stop us now

You see, certain people tried to brand us  
Without takin' the time to understand us,  
I get the fact there's a business plan but,  
That shit damn near broke the band up  
And this might seem random but I got to give a shout out to the  
fandom (I love you!)  
Been a couple years and you all stuck around and  
Means more than you'll ever understand  
Cause we do it for the buzz when we get up on the stage  
High like a drug straight shot to the veins  
We don't do it for the money we don't do it for the fame  
We do it for the love and it's never gunna change

Baby we're back  
Did ya miss me miss me  
Here on this track  
Are you listening listening  
I'm in the stars  
And I'm never coming down  
Oh whoa oh  
No one can stop us now

No one can stop us now
