

Rush

Emblem3

I swear it's the worst
I literally hate how good you look right now
Yeah it hurts
And tell me if I called you mine tonight would you call me yours, oh
She said that I think we should let nature
Keep taking her course, so
I said of course

With the sex so good that I won't forget it
Left a Lipstick smear on my collar bone
Stained my shirt with a vodka soda
Right before you told me to take you home

And I can't get close enough
Even with you right here
Our emotions overflow
It's all so clear

When you blush
That's how you know, you know, you know
And when we touch
That's when it shows, it shows, it shows
Feelin' the rush
That's how you know, you know, you know
I'm feelin' the rush
That's how you know, you know, you know

You really get on my nerves
With all of this energetic tension
She pulled up my shirt
She knew that she did not need permission

When we fit four people in the two-seater
With the window down breathin' up the night
Broken bottles along this boulevard
And still we manage to do alright

Caught off guard when you push me up
Against the stairwell now we're making out
Pull my ear down to your mouth
And whisper "take me to your bed right now"

And I can't get close enough
Even with you right here
Our emotions overflow
It's all so clear

When you blush
That's how you know, you know, you know
And when we touch
That's when it shows, it shows, it shows
Feelin' the rush
That's how you know, you know, you know
I'm feelin' the rush
That's how you know, you know, you know

That's how you know, you know, you know

That's how you know, you know, you know

With the sex so good that I won't forget it
Left a Lipstick smear on my collar bone
Stole my heart with your eyes like oceans
Right before you told me to take you home

And I can't get close enough
Even with you right here
Our emotions overflow
It's all so clear

When you blush
That's how you know, you know, you know
And when we touch
That's when it shows, it shows, it shows
Feelin' the rush
That's how you know, you know, you know
I'm feelin' the rush
That's how you know, you know, you know

Feelin' the rush
That's how you know, you know, you know
