

Spooked

Emblem3

Yeah she right about round 19
A fine thing lookin to the zodiac sign trying to find what it means
This the thing
She got the bubble back side make it pop like champagne
Get ya wrapped round me like a ring
No attachments baby no strings
Just shadows in the neon green
Shadows in the neon

Yeah I came for more than a taste
Tell her life's too short never waste
Got a dream
That I'll chase till the grave

Can you see the truth in my eyes
I won't lie
When you walk by you look so f*cking good I could die
Made a guy with a soul in the dark and a stone cold heart see the light
Made a flatline beat come alive
Find a glass and we'll drink up the white
That Sauvignon Blanc bone dry
That Sauvignon Blanc so smooth
Won't lie I got trust issues
Won't lie I got trust issues
Been hurt more than once got spooked
I can see that you got some too
Won't lie I got trust issues
Won't lie I got trust issues

Yeah I see your face now I know that heavens true

Curves round the waste looking like a crescent moon
Things on the bucket list that I Gotta do
Get you on the wave movin like the water do so smooth
On the couch in the back of the room
Then we light it up and we sail through the blues
Lean back then we cruise all the memories press down hard on the bruise
Yeah I came for more than a taste
Tell her life's too short never waste
Got a dream that all chase till the grave

Can you see the truth in my eyes
I won't lie when you walk by you look so f*cking good I could die
Made a guy with his soul in the dark and a stone cold heart see the light
Made a flatline beat come alive
Find a glass and we'll drink up the white
That Sauvignon Blanc bone dry
That Sauvignon blanc so smooth
Won't lie I got trust issues
Won't lie I got trust issues
Been hurt more than once got spooked
I can see that you got some too
Won't lie I got trust issues
Won't lie I got trust issues
