

# Waking Up

Emblem3

All the time, where'd it go  
Been lacking all the light we need to grow  
Let it shine, let it glow (oh oh woah)  
This war inside, we're terrified  
Breaking down these walls inside the mind  
Bring fire in a world of snow (oh oh woah)

Let's follow the road  
That leads us to the dreaming  
Wherever we go  
I know we won't be sleeping

Wake oh wake up  
Look at all beautiful  
Wake awake  
We're stars under the telescope  
I know, I know  
We can ditch the cynical  
Wake oh wake up  
In middle of the mystical  
All we got are reflections of the sun  
So here's out shot  
We're finally waking up (we're waking up!)

Sleeping nights, open wide  
Waking up to all the wonder here  
Who am I? Now I know (oh oh woah)  
So come alive, and feel the ride  
Taking us to where we need to be  
Rise and shine, come let's go (oh oh woah)

Let's follow the road  
That leads us to the dreaming  
Wherever we go  
I know we won't be sleeping

Wake oh wake up  
Look at all beautiful  
Wake awake  
We're stars under the telescope  
I know, I know  
We can ditch the cynical  
Wake oh wake up  
In middle of the mystical  
All we got are reflections of the sun  
So here's out shot  
We're finally waking up (we're waking up!)

We'll build a love to last a lifetime  
Live in the skies  
We'll elevate no one can ever bring us down  
No mistaking we're awoken  
Oh woah oh woah oh  
No mistaking we're awoken  
Oh woah oh woah oh  
No mistaking we're awoken

Let's follow the road  
That leads us to the dreaming  
Wherever we go  
I know we won't be sleeping

Wake oh wake up  
Look at all beautiful  
Wake awake  
We're stars under the telescope  
I know, I know  
We can ditch the cynical  
Wake oh wake up  
In middle of the mystical  
All we got are reflections of the sun  
So here's out shot  
We're finally waking up (we're waking up!)

Oh woah oh, oh woah oh  
We're finally waking up (we're waking up!)  
Oh woah oh, oh woah oh  
We're finally waking up
