

# Come Back to What You Know

Embrace

Come back to what you know  
Take everything real slow  
I wanna lose you but I can't let you go

Before you interfere  
Let me make it loud and clear  
That you got no more to prove, I'm a fool

So take it easy on yourself  
There's nothing new about  
Regretting how you felt

I'll never let you down  
Or ever feel the way  
That I've been fearing now

I'm coming back to what you know won't mean a thing  
Everything that you've done keeps you from me  
Now I know that I need more time  
Come back and let me see you're right

I'm coming back to what you know  
'Cos I know that I need it, now it's gone  
Now I know that I need more time  
Come back and let me see you're right

So hang on to what you've got, keep it safe  
Hang on to what you've got  
Keep it safe from harm  
You'll find there's nothing new that we can't leave behind

Come back to what you know  
Take everything real slow  
I wanna lose you but I got far too high  
To let go, now the demon in me knows  
What I knew so long ago

I'm coming back to what you know won't mean a thing  
Everything that you've done keeps you from me  
Now I know that I need more time  
Come back and let me see you're right

I'm coming back to what you know  
'Cos I know that I need it, now it's gone  
Now I know that I need more time  
Come back and let me see you're right

So hang on to what you've got, keep it safe  
Hang on to what you've got  
Keep it safe from harm  
We got time, we got time

I'm coming back to what you know won't mean a thing  
Everything that you've done keeps you from me  
Now I know that I need more time  
Come back and let me see you're right

I'm coming back to what you know  
'Cos I know that I need it, now it's gone  
Now I know that I need more time  
Come back and let me see you're right

Come back to what you know  
Take everything real slow  
I tried to lose you but I got far too close
