

## Enough

Embrace

My god, he works in mysterious ways  
You don't feel the guilt, then you don't have to pay  
I'm not afraid, I'm not your slave  
You'll be amazed that I pick your plays

There is a line, you crossed it runnin'  
You've had your time, I've just had enough  
Now I've just had enough  
You draw your lines, I'll cross them runnin'  
You've had your time, I've just had enough

You say that I'm generations behind  
All that I am you've got locked up inside  
Give me a gun, give me a sign  
I'll head for the front and I'll feel justified

You draw your lines, I'll cross them runnin'  
You've had your time, I've just had enough

What in the world are you gonna do?  
What in the world are you gonna say  
That will make it happen for you  
And make gold as you'd walk away, away, away, away  
I've just had enough

Now I've just had enough  
Now I've just had enough  
Now I've just had enough  
Now I've just had enough
