

Remember Me

Embrace

Everything you know, I know
Everyone you touch I've held before
Every time you speak I'm gone
I know we're done
Every hope I had it was you I hung it from

We built what I'm seeing
We filled it with memories
And it falls down beneath us
It's breaking remember me
Oh we lived here, we made this
You left me here with all of it
And I miss you, I'm sorry
Remember me

Anytime I think I'm free
Anyone I meet it's always you I see
Any dreams I have I pull you in
With me you know
Anywhere you go I'd go

So we built what I'm seeing
We filled it with memories
And it falls down beneath us
It's breaking remember me
Oh we lived here, we made this
You left me here with all of it
And I miss you, I'm sorry
Remember me
Remember me

We built what I'm seeing
We filled it with memories
And it falls down beneath us
It's breaking remember me
Oh we lived here, we made this
You left me here with all of it
And I miss you, I'm sorry
