

We Are It

Embrace

Today I made my bet with the devil
For my four hundred tricks
Got pulled apart by Trojan horses
But now I know that we are it

Everything I lose
Everything I win
Everything I do
I know we are it
And everything I choose
Everything I did
It brought me back to you
I know we are it
We are it
We are it

I thought that Judgement Day was coming
When we danced in '99
But the world is ours for ever after
And we didn't have to try

Everything I lose
Everything I win
Everything I do
I know we are it
And everything I choose
Everything I did
It brought me back to you
I know we are it
Know we are it
We are it

And when my life's a vicious circle
That spins too fast to see my own way out
You let me out
And when I fall into a wormhole
That spins too fast to see
And I can't run any faster
You are always there for me
'Cause there's nowhere I go, darling
Where you won't go to be there just for me
Cause it's you and me

Everything I lose
Everything I win
Everything I do
I know we are it
And everything I choose
Everything I did
It brought me back to you
I know we are it
We are it
We are it
We are it
We are it
