

## Dead roses

Embrace

All the things you said to him  
They came deep from your heart  
The land was frozen and the cold wind was so hard  
You still remember the last touch

It was the most beautiful time  
The most beautiful time in your life  
If you won't ever see him again  
He still got the place for you  
In his heart

All the beautiful dies when time passes by  
If you won't close your heart  
Time will heal your every scar

I had dreams when I was child  
But they never came true  
Where is the child I used to be  
Where is the hope and my dreams

It is time when all flowers are dead  
Eternal longing fills my heart  
She reminds me of the autumn nights  
When stars are the bridge in the sky

She walks alone on this empty street  
Along this street of dead leaves  
Dead roses in her hand  
They remind me that nothing lasts forever
