

Heart comin' up my throat  
Hold my hair I just might choke  
Ugh, my tongue is numb  
I thought I was having fun

I just got here but I'm leaving  
Think I'm getting worse at breathing  
I'll avoid the bad impressions  
Diet coke seven eleven

Up and down  
I'm running out of  
Batteries

Am I making me happy?  
Am I trying so badly?  
Do you like it when I'm lying?  
Is it better if I'm crying?  
Is it part of surviving?  
Is my brain over firing?  
I'll be selling if you're buying  
I'll be drinking if you're driving

It hasn't rained  
Fifty-seven days  
Outer space

I win the race  
Yeah, I even found a  
Parking space

Oh, what a shame  
Didn't even think my heart could break

Are you okay?  
In upper case?

Am I making me happy  
Am I trying so badly  
Do you like it when I'm lying?  
Is it better if I'm crying?  
Is it part of surviving?  
Is my brain overfiring?  
I'll be selling if you're buying  
I'll be drinking if you're driving

I just got here but I'm leaving  
Think I'm getting worse at breathing  
I'll avoid the bad impressions
