

9 LIVES

Emei

How many times can I say "I'm sorry"?
How many times will you take me back?
'Cause part of me dies when you say "Don't worry"
'Cause I know inside that you're keeping track

You're not sleeping on the couch
You're not gonna do this now
Come to bed, take a sec
You don't mean what you said
Maybe there's an easy fix
Maybe I'm a counterfeit
I will do what you want
Anytime, any cost

I know we've been here before
But I think the ending is different

How many times can I say "I'm sorry"?
How many times will you take me back?
'Cause part of me dies when you say "Don't worry"
'Cause I know inside that you're keeping track
If I'm what you want and everything I do wrong
Write out the pros and cons 'til you cross me off
How many times can I play dumb?
He gave me nine lives, now I'm down to one

Somewhere there's a line you draw
Somewhere in the sand
Know I'm gonna cross it but
I just don't know when
'Cause I can tell you're keeping score
And I don't think that I've been winning

How many times can I say "I'm sorry"?
How many times will you take me back?
'Cause part of me dies when you say "Don't worry"
'Cause I know inside that you're keeping track
If I'm what you want and everything I do wrong
Write out the pros and cons 'til you cross me off
How many times can I play dumb?
He gave me nine lives, now I'm down to one
