Emei

Dishes in the sink
Circles from your drink
Say the table's there for coffee
Scrubbing out the stains
Wash it down the drain
Airing out our dirty laundry

Tell me I'm always like this
When everything gets a little quiet
You didn't have to and then you said it
And now it's out there and you can't take it

Back, back track
Better think fast
Swear to God you didn't mean it like that
Back, back track
Now you feel bad
Too far gone to try to take it all back
Turn your words to ice on my bruise
Can't pull a punch you already threw
Back, back track
Better think fast
Too far gone and baby now it's just sad

Staying out the house
Sleeping on the couch
So I don't have to hear you breathing
Circling the ring
Here we go again
I don't need to stand here while you

Tell me I'm always like this
You say you're sorry but I don't buy it
You didn't have to and then you said it
And now it's out there and you can't take it

Back, back track
Better think fast
Swear to God you didn't mean it like that
Back, back track
Now you feel bad
Too far gone to try to take it all back
Turn your words to ice on my bruise
Can't pull a punch you already threw
Back, back track
Better think fast
Too far gone and baby now it's just sad

Not gonna say it
You wouldn't say it to me
Then you go and say it
And you always say what you mean
Not gonna say it
You wouldn't say it to me
Then you go and say it
And you always say what you mean

Back, back track
Better think fast
Swear to God you didn't mean it like that
Back track
Now you feel bad
Too far gone to try to take it all back
Turn your words to ice on my bruise
Can't pull a punch you already threw
Back, back track
Better think fast
Too far gone and baby now it's just sad
