

RABBITHOLE

Emei

I can see them now, I can hear them saying
Look at her, wow, there she goes (wow)
Must've lost her mind for your entertainment
Falling down the rabbit hole

Breathe in, breathe out
No stress, no doubt
Don't cry, don't shout
Breathe in, breathe out
Shut up, pipe down
I'm good for now

Oops, yeah I just did a full one-eighty
Oops, been taking lotsa NyQuil lately
Oops, we're almost to the encore baby
So if you stick around, we'll be going

Down d-d-down down d-d-down down down
Down d-d-down down (falling down the rabbit, rabbit)
Down d-d-down... down down down
Down d-d-down down

Mom and dad are looking retirement-ready
Oh my God I'm getting old
Superstars are made before they're twenty
Falling down the rabbit hole

Breathe in, breathe out
No stress, no doubt
I'm good for now

Oops, yeah I just did a full one-eighty
Oops, been taking lotsa NyQuil lately
Oops, we're almost to the encore baby
So if you stick around, we'll be going

Down d-d-down down d-d-down down down
Down d-d-down down (falling down the rabbit, rabbit)
Down d-d-down... down down down
Down d-d-down down

Wanna play house but I play charades
Blur me out like a Super 8
Tell me, tell me, are you with it, with it?
Be right there in a minute, minute
Feel a bit sick, now I'm seeing stars
Down eight floors to the hotel bar
Every hour feels different, different
Rabbit hole, now I'm in it, in it

(Breathe in, breathe out)
