Scatterbrain

Emei

Dun, dun dun, dun, dun dun
Alright

Got a lot of friends that I can't escape
Sleepin' in my head like a Motel 6
Hold it all together with a little duct-tape
It bends, it breaks
Got a lot of dreams but I let them die
Ping pong, drip drop, oh-my-my
The TV's on, but the noise is white
(What am I doing now?)

God, can't I catch my breath?
Not even for a second
Chasin' Santa Ana winds
And I obsess, I slow dance with the tension
Can you taste it on my lips?

I'm so scatterbrain
But when you touch me, it all goes away
Scatterbrain
For a second I don't feel insane
Come medicate me

I don't sleep at all, yeah, I've been countin' sheep
I look perfect on the surface but a nightmare underneath
I got anger problems, I say things that I don't mean
Some people pay for therapy, I find it in the sheets

Catch my breath
Not even for a second
Chasin' Santa Ana winds

I'm so scatterbrain
But when you touch me, it all goes away
Scatterbrain
For a second I don't feel insane
Come medicate me (Scatterbrain)
I need you baby (Goes away)
I need it daily (Scatterbrain)
I need you baby (Feel insane)
Come medicate me

(Got a lot of friends that I can't escape, can't escape, can't escape
)
(Sleepin' in my head like a Motel 6, Motel 6)
Come medicate me
