

SUGARCOAT

Emei

Shut up baby, just drive
Keep your eyes on the prize
Do that thing that they like
Lemon drink without ice
You can get it half price
Keep it sweet and concise

Yeah, keep it sweet like sugar
Darling, don't break inside the pressure cooker
It's not that deep, good looker
They're simple creatures, all that you need is

A spoon full of sugar makes the boys go ooh
Just go and do that thing you do
Tr-tr-trust me, it's a science
Sugarcoat your feelings 'til you're not the one crying

Here's some tricks and how-to's
Tell a 5'6" they look 6'2"
You got nothin' to lose
Tell them they feel like déjà vu
If you want a guy with a high IQ
All you gotta give is an ego boost
Pickin' out rings in a month or two, or three

Yeah, keep it sweet like sugar
Darling, don't break inside the pressure cooker
It's not that deep, good looker
They're simple creatures, all that you need is

A spoon full of sugar makes the boys go ooh
Just go and do that thing you do
Tr-tr-trust me, it's a science
Sugarcoat your feelings 'til you're not the one crying

Sugarcoat your feelings 'til you're not the one crying
Sugarcoat your feelings and there's nothin' wrong with lying
Sugarcoat your feelings 'til you're not the one crying
They're simple creatures, all they really need is
