

# Trust Issues

Emei

Had a dream where they shaved my head  
Top model, makeover stitch  
Heads up from the subconscious  
New look, still I got upset  
Got a doctor on the interweb  
Say it means I need a safety net  
New faces leaving me on read  
New cities getting to my head

Calling them incompetent 'cause I might need control  
Recovering perfectionist, I'm learning to let go

I've got trust issues  
Jumpin' out the plane without a parachute  
Micromanage up until I blow a fuse  
Don't like it when they tell me  
But I know I do, I've got trust issues

Everybody likes to give advice (Calm down)  
Optimists are hard to fight  
Telling me how to live my life (My life)  
Take it chill, give it time  
But I'm impatient, like to plan ahead (Ahead)  
Gotta be ten out of ten  
When I see it going out of line  
Tell myself it's a waste of time

Calling them incompetent 'cause I might need control  
Recovering perfectionist, I'm learning to let go

I've got trust issues  
Jumpin' out the plane without a parachute  
Micromanage up until I blow a fuse  
Don't like it when they tell me  
But I know I do (I know I do)  
I've got trust issues (I know I do)

I've got trust issues  
But I know I do  
I've got trust issues
