

# Babe

Emeli Sandé

I was lost  
In the dead of night  
But then came angels  
I could not fight no  
All of a sudden, I'm fading  
I was blinded, by the light  
Til you said

Babe  
It's okay, it's okay now  
Let it out, let it love, let it rain down  
Hold me now, hold me down, hold me always  
Babe, babe, babe, now  
Babe, say my name, it's okay now  
Say it loud, shout it out, down the hallway  
Love me now, love me now, love me always  
Babe, babe, babe

There were sirens  
Out to get me  
So by now, I swear I've heard it all  
I just pray  
You choose to catch me  
But either way  
You're always worth the fall  
So I said

Babe it's okay, it's okay now  
Let it out, let it love, let it rain down  
Hold me now, hold me down, hold me always  
Babe, babe, babe  
Babe, say my name, it's okay now  
Say it loud, shout it out, down the hallway  
Love me now, love me now, love me always  
Babe, babe, babe, now  
Babe, say my name, it's okay now  
Say it loud, shout it out, down the hallway  
Love me now, love me now, love me always  
Babe, babe

Hey, all the things that they say  
Love cause the things they choose to hate  
It's just a love that they're afraid of  
But see, I'm not afraid to take a leap  
Not afraid to get too deep  
Singing long live the angels  
And hey hey, take note of colours in your dreams  
Things aren't as dark as they may seem  
Remember fear is in no way truthful  
And I say what luck to find you in this life  
I've been around so many times  
And never found someone so beautiful

So babe  
It's okay, it's okay now  
Let it out, let it love, let it rain down  
Hold me now, hold me down, hold me always

Babe, babe, babe, now  
Babe, say my name, it's okay now  
Say it loud, shout it out, down the hallway  
Love me now, love me now, love me always  
Babe, babe, babe, now

Now, babe  
Babe, say my name, it's okay now  
Say it loud, shout it out, down the hallway  
Love me now, love me now, love me always  
Babe, babe, babe, now

So babe  
It's okay, it's okay now  
Let it out, let it love, let it rain down  
Hold me now, hold me down, hold me always  
Babe, babe, babe
