

Easier In Bed

Emeli Sandé

I'm feeling like a hole in your head
Like the last thing in the world that you need
Time to go but we hold on instead
Close our eyes and we make believe

It's hard, hard to fake it baby
Hard to endure it baby
This don't feel like love anymore
Hard, hard to take it baby
Hard, hard to face it baby
It's getting harder to ignore

But it's easier in bed
Easier in bed
At nighttime we pretend
'Cause it's easier in bed

You're feeling like we're failing the test
Our fading dream is breaking your heart
You know the physical is all we've got left
'Cause the only time you see me is in the dark

And it's hard, hard to fake it baby
Hard to endure it baby
This don't feel like love anymore
Hard, hard to take it baby
Hard, hard to face it baby
It's getting harder to ignore

But it's easier in bed
Easier in bed
At nighttime we pretend
It's easier in bed

It's easier in bed
Easier in bed
At nighttime we pretend
It's easier in bed
