

# Give Me Something

Emeli Sandé

I guess I got caught up  
In the rough and tumble  
I didn't mean to cause no trouble  
At all, at all  
I'm just so sick  
Of the dream they're selling  
It doesn't feel like heaven  
At all, at all

So give me something  
Oh, give me something  
Give me something  
I can believe in  
Give me something  
Come on, give me something  
Please, give me something  
I can believe in

I fell in love with fear  
Oh God, forgive me  
Have mercy on me  
Oh it's not easy here  
Hey, please excuse the mess  
See, I just wanna feel  
Oh, I mean really, really feel  
It all, it all

So give me something  
Oh please God, give me something  
Oh give me something  
I can believe in  
Give me something  
Come on, give me something  
Give me something  
I can believe in

Oh yeah, you got people  
But people change their minds  
And people change their hearts  
With the seasons  
And then the songs  
They too must end  
So tell me now, my friend  
Where does that leave us?

Give me something  
Come on, give me something  
Oh please God, give me something  
I can believe in  
Give me something, anything  
Give me something  
Give me something  
I can believe in

Give me something  
Give me something  
I need something

I can believe in
