

Here It Comes

Emeli Sandé

It has has been a thousand years since I have gave up hoping
Left all my hearts and all my tears at the bottom of the ocean
I hit the ground, I hit the dirt
Went cold turkey on the church
I just kept on running running running running running running

I got real good at laying low
I got the hang of breaking
But today I feel like volcano
Today something is changing
Can't hold it down, it's breaking loose
I could try, but there's no use
In running running running running running running

Here it comes
Here it comes

Hold them steady, blazing guns
Ooh, get ready
'Cause here it here it here it here it comes

Had my turn to tie my shoes
It came unexpected
Like a prayer out of the blue
Hit me like electric
Waking up my rusty car
I'm afraid, but there's no point
In loving loving loving loving loving loving

Jumping off the window seal
Flying over cities
I left a note and paid my bills
I wonder if they'll miss me
'Cause I don't know when I'll return
I waited long but here's my turn
In loving loving loving loving loving loving

Here it comes
Here it comes
Here it comes

Hold them steady, blazing guns
Ooh, get ready
'Cause here it, here it, here it, here it comes

Ooh, I don't know why you'd try to leave me there
Ooh, jumbo jets and rockets
There's no way, there's no way to stop it

Ooh, speeding up the moment away
I hope there's not a price to pay
There's no way, there is no way to stop it

Here it comes
Here it comes

Hold them steady, blazing guns

Oh, get ready

Here it comes

Here it comes

Running [repeat]

There's no way, there's no way to stop me [repeat]

Here it comes

Here it comes

Hold them steady, blazing guns

Oh, get ready

Here it comes

Here it comes
