

Higher

Emeli Sandé

High, high

So high that the airplanes are empty
Yes, you know it's dangerous, this high
So high that the highs and lows are always
Highs and never lows, you know no lie
So high that the atmosphere is different here
It's pretty clear to see love's here

All love, no fear, all love, all love

Take me higher, take me higher
Take me high, high, higher
Take me higher, take me higher
Take me high, high, higher

So high that the astronauts look after us
Yes, heaven touches us this high
So high we're above the sun
The pain is gone, the pain is gone, you know, no cry
So high that the galaxies are at our feet
It's pretty clear to see love's here

All love, no fear, all love, all love

Take me higher, take me higher
Take me high, high, higher
Take me higher, take me higher
Take me high, high, higher

Man are nuts, man are potty
They don't know Bugattis, they just cop a shorty
They don't have your back, they crying proper softly
Weighing up the stacks, she got the pot of coffee
Just finish off the track, he wants the copper copy
I ain't even gassing, man, I'm proper cocky
I'm just in that zone, you keep a-knocking, knocking
When I'm in the zone I need that proper locking
Got them waters flowing, that's that proper washing
Got me on my poetry with extra toppings
When I rip that flowetry it gets them moshing
When I say that line on stage it gets 'em coughing
Yeah, fuck a gamble
Got the guns, yo, and the candles
Fuck a bando, got the damsel
On my beach flex in my sandals

I went to the center, children wearing crowns
This is mother's kingdom, fear is not allowed
(Yeah, fear is not allowed here)
She said, take your jewelry out, my child, it weighs you down
(It's weighing you, weighing you down)
Who you think you're saving, stuck here on the ground?
(Nobody, nobody)
Watch how you gon' fly, if you do, trust in me
(Watch how you gon' fly now)
My love, it can be your antigravity

(I can be your antigravity)
Find your freedom in my perfect harmony
(You can find your freedom)
Watch how you gon' fly when you believe in me

Take me higher, take me higher
Take me high, high, higher
Take me higher, take me higher
Take me high, high, higher

All love, no fear, all love, all love
All love, no fear, all love, all love
All love, no fear, all love, all love
All love, no fear, all love, all love
