

# Kung Fu

Emeli Sandé

Jupiter, kung fu, you know what I'm talking 'bout  
Garden, darling, you know who the song's about  
Same old human, but you know who I really am  
When I say "Truman", I know you gon' understand me  
Tears keep falling and writers got the best of me  
New York's calling, meet me on balcony  
Say lead me, lead me  
But you know what I really mean is  
Keep me, keep me

When you're lonely and you need someone  
Then just call me and you got someone  
I'll come running, I'll drop everything  
Cause You know that you're my everything  
When you're busy, look I understand  
I can't have you like the way I dreamt  
When you're lonely and you need someone  
Then just call me and you got someone

Don't you know you've got somebody?  
You always got somebody  
Don't you know you've got somebody in me, yeah  
Don't you know you've got somebody?  
You always got somebody  
You got somebody in me, yeah

Jupiter, kung fu, you know where I'm coming from  
When genius happens, there's no need for thinking long  
Oh God bless you, still thankful for the view  
Giving tender, love and care to all those in need of you  
Mexico, hablo con Frida y Diego, venga callate  
Sabes que te amo  
Leave me, leave me  
But you know what I really mean is, all I really need is you

When you're lonely and you need someone  
Then just call me and you got someone  
I come running, I'll drop everything  
Cause You know that you're my everything  
When you're busy look I understand  
I can't have you like the way I dreamt  
When you're lonely and you need someone  
Then just call me and you got someone

Don't you know you've got somebody?  
You always got somebody  
Don't you know you've got somebody in me, yeah  
Don't you know you've got somebody?  
You always got somebody  
You got somebody in me, yeah

Need somebody?  
Just call me and you got somebody  
I got everything, yeah, yeah, yeah  
Just know you want everything, yeah, yeah, yeah  
Hey, yeah  
Yeah

Yeah
