

Lighthouse

Emeli Sandé

I've been sailing nowhere since November
Where I'm headed I just can't remember
Losing faith in this unfaithful compass
I'm so thirsty on these lonely waters

So shine a light
Shine it real bright
Light the sky
From the lighthouse
Ooh darling I need you to find me to guide me
Shine a light shine it real bright
Save a life from the lighthouse
Ooh darling I need you to find me to guide me

Tryna map the sky can get confusing
Shooting stars so good at disappearing
I send this message using my last bottle
So by the time you read this know that I'm in trouble
I'm in trouble

So shine a light
Shine it real bright
Light the sky
From the lighthouse

Ooh darling I need you to find me, to guide me
Shine a light shine it real bright
Save a life from the lighthouse
Ooh darling I need you to find me

Angel Nightingale here comes the storm and hail
Please save me from the whale
Oh Angel Nightingale
Calling Nightingale
Here comes the storm and hail
Please save me from the whale
Oh Angel Nightingale

So shine a light
Shine it real bright
Light the sky
From the lighthouse
Ooh darling I need you to find me, come guide me
Shine a light shine it real bright
Light the sky from your lighthouse
Ooh angel
Come on
Find me
Guide me
Find me
Come on guide me
Come on find me
Come on Find me Find me
