

# Love Not War

Emeli Sandé

The politics, the politics be crazy  
I swear the television's trying to kill my baby  
This crazy guy is holding driver's crazy  
Autumn mansion's really kinda scary  
Now he said, "Why you acting like you'll live forever?"  
You gotta cherish anytime you get together  
The world can change its ways, it must stay changing  
But every time I pray I hear the same thing

Put down your sword, take less and give more  
Love your sister brother like before  
Make love and not war  
Make love and not war, not war, not war, not war, not war, not war  
Love your sister brother like before  
Make love not war

I know that disrespect can get your blood to boiling  
But keep in my mind that violence is a poison  
Raise your hand up Baby you're anointed  
You are loved and needed so important  
Now what a shame bullies left in charge now  
Intimidation always trying to bring my heart down  
But no matter how much gravity the rain brings  
Every time I pray I hear the same thing

Put down your sword, take less and give more  
Love your sister brother like before  
Make love and not war  
Make love and not war, not war, not war, not war, not war, not war  
Love your sister brother like before  
Make love not war

Every time I use my third eye, message is the same  
We all have an equal part and choice to love or hate  
But humans have a tendency to fear and aggravate  
Find your truest power when you meditate  
But when you find it hold on tight and you shall elevate  
Love is needed more than ever do not hesitate  
Mother needs some life support we cannot be late  
Love is needed more than ever do not hesitate  
Now ego is the friendliest of your frenemies  
Be careful or he'll rob you of all your energy  
Power struggles will forever be a waste of time  
What's yours is yours, what's God's is God's, cannot be mine  
What's yours is yours, what's God's is God's, cannot be mine

So put down your sword, take less and give more  
Love your sister brother like before  
Make love not war
