

Love

Emeli Sandé

Brother there may come lightning
But it won't be so frightening
If you if you believe in love
And sister there may be troubles
But you'll rise above all
If you if you believe in love
If you if you believe in

Love, love, love, love, love, love
Love, love, love, love, love

Now child there may come people
Who wish you evil
Protect protect yourself with love
Oh my friends
We still have a chance at peace
But only if we believe
We must we must believe in love
We must we must believe in

Love, love, love, love, love, love
Love, love, love, love, love

We must believe in love
We must we must believe in love
We must we must believe in love love
We must we must believe in love
In love love

Don't give up on love
It won't give up on you
When it gets too tough
Love gon pull you through
I know it's been real dark
I know you lost your way
I know that things been hard
But there'll come better days
Love gon heal your heart
Love gon give you your truth
What better place to start
Then deep within you?
So don't give up on love
Love's not giving up on you
Don't give up on love

Love we must believe in love
We must we must believe in love, in love
We must believe in love love
Protect yourself with love
Protect protect yourself with love
Don't give up
No don't give up on love
We must we must believe in love

Love, love, love, love, love, love, love
Love, love, love, love, love, love, love
Love, love, love, love, love, love, love

Love, love, love, love, love, love, love
