

## Sparrow

Emeli Sandé

I got wind beneath my wings  
I think this time I'm gonna make it till morning  
I got strength within my heart  
I'm gonna sing for all the heroes who've fallen  
Yeah, I'm gonna take the long, the long way home  
Yes, I'm gonna take the world, the world by storm

We got magic in our bones  
Just like the stars we're gonna shine bright and golden  
We go bang down all the doors  
Make sure we take back all the things that were stolen  
We're gonna take the long, the long way home, yeah  
We're gonna take the world, the world by storm

Say with a heart of a sparrow  
Tell me what arrow could ever bring you down, yeah?  
Oh, the escape it was narrow  
But what a gift the, the courage you found  
Say with a heart of a sparrow  
Tell me what arrow could ever bring you down?  
Oh, the escape it was narrow  
But what gift of courage you felt, yeah

I got stars within my soul  
I think the dust is gonna finally settle  
Pure as rivers, strong as mountains  
We spread love like the flowers give petals  
Oh, we're gonna take the long, the long way home  
Oh, we're gonna take the world, the world by storm  
We're gonna take, take the long way home  
That's right  
Then we're gonna take the world, the world by storm  
Yes, we're gonna take the whole wide world by storm
