

Summer

Emeli Sandé

I, I'm not really from nowhere
I follow if my heart goes there
I guess I've been this way since young
I live my life out on the run
I found it hard to open up
Me and my heart ain't had much luck
Until the day I felt your love
Yeah

It's always summer
Every time you come over
Swear I've never had a rainy day with you
It's always summer
Every time you come over
Oh I've never had a rainy day with you

You, you can make the flowers bloom
Make all year feel like mid June
I swear you light my whole sky up
You even raise my temperature
Winter lasted way too long
I lost myself deep in the storm
Until you came and made me strong
Yeah

It's always summer
Every time you come over
Swear I've never had a rainy day with you
It's always summer
Every time you come over
Swear I've never had a rainy day with you

See when you're near
I need for nothing
Nothing to fear in your arms
You collected all my tears in your pocket
I fall asleep for years under your stars now
I keep my window all the way open so I can feel your breeze kiss my skin
I've never been so deep in the ocean til your waves came crashing in

It's always summer
Every time you come over
Swear I've never had a rainy day with you
It's always summer
Every time you come over
Swear I've never had a rainy day with you
