# Too Much

**Emeli Sandé**

I'm at your door
I'm banging three times
It's almost four
Can't get sleep these times
I'm in withdrawal
I miss the sweet times
I really tried to stay away but I can't
Cos I missed you

Too much too much too much
I know we've drifted, been out of touch
I know I said that I'd had enough
But I missed you too much too much too much

Please hear me out
Oh look I'm sorry
I'd scream you'd shout
Things got real ugly
We can turn round
Please baby trust me
Cos there is no way
I can live without you

See I missed you
Too much too much too much
I know we drifted, been out of touch
I know I said that I'd had enough
But I missed you too much too much too much

I've been out there met different people
No one compares none are your equal
If you still care can we try reload?
See tried to erase your name but I can't

See I missed you too much too much too much
I know we've drifted been out of touch
I know I said that I'd had enough

But I missed you too much too much too much
Too much too much too much
