

# Freedom Call

Emerald Sun

For me

You would walk through fire to see my devise  
Would betray your god no matter what's the price  
Where there's justice still my breath is in the air  
I can vanquish all the sorrow and despair

But I

I am just a word if you will loose your aim  
"Serve no masters" is the meaning of my name  
For all destiny and love I am the key  
If you got the strength look what they've done to me

Freedom  
Freedom  
Freedom  
Freedom

Shame!

We've lost our values look what we became  
The flame in our hearts isn't the same  
Fight!  
Noone can tell you if it's wrong or right  
Ignite!  
The spark forgotten inside

Head up high - be the dissenter  
In our code there's no surrender

Freedom call  
Strikes a lightning in us all  
We can sail across the oceans, cause a wave that breaks the wall  
Freedom call  
Strikes a lightning in us all  
Just one step into the circle, and the rock begins to roll  
Insane  
Is how we turned all the sunlight to ra  
Arraign  
All those who poisoned your brain  
Ally!  
Join forces, be a needle in their eye  
Retry!  
We don't have to live this lie

Head up high - be the dissenter  
In our code there's no surrender
