

Drowned in sin and greediness
We suffer from delusion
Blinded by our profit
We live in confusion

Disrespected mother earth
Gave everything a price
Instead of human values
We chose sacrifice

Gaia is her name
Revenge what she became
A cleanse to show us
Who's to blame

Storms to end the innocence
In days of decadence
Will we ever break this spell
Or raise the flag of hell

At the point of no return
One step before extinction
We ignore reality
In worlds of fiction

Earth endured us for too long
Don't wait for her reaction
She will show us finally
Our own reflection

Gaia is her name
Revenge what she became
A cleanse to show us
Who's to blame

Storms to end the innocence
In days of decadence
Will we ever break this spell
Or raise the flag of hell

Gaia is her name
Revenge what she became
A cleanse to show us
Who's to blame

Storms to end the innocence
In days of decadence
Will we ever break this spell
Or raise the flag of hell
