

# The Hunter

**Emerald Sun**

Moving through the haze  
Lying in wait in this maze  
In vast lands  
And forests I seek  
For the beast to  
Show his face  
Or at least to find a trace  
To keep pace...

Full moon and  
The dread is on the prowl

Claws sharp as steel  
Rip the skin  
Doesn't feel any mercy or sin  
Spreading death  
Across the land  
Now his fate is in my hands  
I will hunt him down  
I will hunt him down  
Take his life and  
Bring this to an end

Fatal silence around  
Lurking danger  
With no sound  
An underworld  
Freak on the loose  
He is half beast and half man  
Time to end what he began  
And I can...

Full moon and  
The dread is on the prowl

Claws sharp as steel  
Rip the skin  
Doesn't feel any mercy or sin  
Spreading death  
Across the land  
Now his fate is in my hands  
I will hunt him down  
I will hunt him down  
Take his life and  
Bring this to an end

Full moon and  
The dread is on the prowl

Claws sharp as steel  
Rip the skin  
Doesn't feel any mercy or sin  
Spreading death  
Across the land  
Now his fate is in my hands  
I will hunt him down  
I will hunt him down

Take his life and  
Bring this to an end
